This course will be beneficial for scientists/teachers, persons engaged in aromatic & medicinal plants activities, cosmetologists, aroma therapists, doctors, practitioners of alternative therapies, beauty experts, and the entrepreneurs who are interested to enter this field

ABOUT THE ORGANIZERS

1. Fragrance and Flavor Development Centre (FFDC), Kannauj

FFDC is a Government of India autonomous body under Ministry of Micro, Small and Medium Enterprises (MSME), engaged in serving, promoting and developing the Indian MSME and the associated farmers in the field of essential oils, fragrances & flavours. The major activities of the centre include cultivation, processing, quality assessment & standardization of aromatic plants, development of fragrances & flavours and training on all aspects of essential oils, fragrances & flavours.

2. Forest Research Institute (FRI), Dehradun

FRI is the oldest and most prestigious institute of Indian Council of Forestry Research & Education (ICFRE), Dehradun, an autonomous council of Ministry of Environment, Forest & Climate Change Govt. of India. The institute started as Imperial Forest Research Institute in 1906 for forestry management in the Indian subcontinent, besides administering training to forest officers and forest rangers. Its history is synonymous with the evolution and development of scientific forestry not only in India, but in the entire region comprising south and Southeast Asia. Chemistry Division of FRI has been in the active service since its inception in 1906 to conduct research and development for promotion and utilization of aromatic plants in consonance with the industry and societal needs. Contributions include chemical examination of aromatic plants, study of essential oils properties and constituents together with the development of suitable extraction methods on bench scale and pilot scale for their industrial utilization and value addition, and preparation of the Indian Standard Specifications of essential oils of lemon grass, eucalyptus, sandalwood, vetiver, cinnamomum leaf, camphor, clove, geranium, citronella, peppermint, palmarosa, gingergrass, rosin and turpentine.
